

BALLISTIC SHIELDS

SHIELD LEVEL IIIA

Large Shield

SMALL SHIELD

The Small Shield provided protection up to NIJ Level IIIA. The Small Shield is easy to handle and is versatile

MEDIUM SHIELD

The Medium Shield provided protection up to NIJ Level IIIA. The Shield can be fitted with a larger or standard size window.

LARGE SHIELD

The Large Shield provides protection up to NIJ Level IIIA. The shield here is shown with a small window. This shield gives the largest area of coverage and is still portable due to a comfortable carry system.

SHIELD SPECIFICATIONS

Description	Size Height x Width (mm)	Shape	Window	Weight (Kg)

Level IIIA Large (Large Window)	1300 x 565	Curved	100 x 400	12

AMBIDEXTROUS HANDLE

The Ambidextrous Handle is multifunctional, enabling the shield to be used by both left and right handed people, it also incorporates two additional handles to allow the shield to be held with the forearm vertically. To ease the load of the shield there is an adjustable neck/shoulder strap which allows the shield to hang across the body and frees both hands.
