

BULLET RESISTANT RUCKSACK/BACKPACK

Businessman, School Kids or a day out can now be protected with a ballistic rucksack.

In around 2 seconds the rucksack converts into a frontal area protecting area too. This is not just for the odd day, but it is an everyday carrier of books, laptops, and important documents.

Benefits

- Stylish yet unobtrusive; it looks like an ordinary backpack
- It offers back protection continuously – to employ full torso protection takes about 5 seconds and is incredibly quick and simple
- Usual shoulder adjustments to allow the backpack to fit 98 percentile of the population
- Enhanced comfort and freedom of movement with the backpack
- 3D mesh material to move moisture away from your back and shoulders
- waist belt - to reduce weight from your shoulders
- Extra padding in shoulder straps allow good weight distribution
- Handgun protection but can have increased protection with insert plates (at extra cost)

Detailed Description

- Protection - soft armor level: NIJ 0101.06 IIIA (stops all handguns bullets). Higher protection level such as level 3, 3+ or 4 can be achieved by adding ballistic hard plates
- Weight: 3 kgs (6.6lbs)
- Material - Cordura 500- Abrasion resistant with aramid ballistic materials

All Products are made with ISO9001:2015 QA Standards with Batch testing and Certification.

Rezigt is the trusted brand of ballistic, blast and cut resistant materials. Please do ask if your specific enquiry is not easily answered.
