

## FOXTROT DEMINING APRONS & VESTS

The Foxtrot range of Demining Aprons and Vests offer protection against explosive mine blast and fragments.

They can be worn by itself for maximum mobility and cooling. The sleeves and/or leggings can be added to increase the protection area. They can be designed to suit the customer specifications and design, available in various levels of protection.

Standard levels are: NATO STANAG 17gr. FSP V50=450m/s, 500m/s and 600m/s. One size fits all.

## STANDARD FEATURES FOR FOXTROT 2 AND 3

- Ballistic Apron, level F1-F6 protection
- Ballistic sleeves (removable) level F1-F6 protection (Foxtrot 2)
